

RED MAKES FASHION NEWS

OldMagazineArticles.com

Red is the color which is going to add excitement to the fall scene. In a season when black is everywhere, the woman who wants to stand out is going to turn to red to express her own sense of drama. Red will be seen in suits, in coats, in after-dark dresses. The color itself is so dramatic that designers rely on cut and line for interest.

Left, a ribbed wool suit by Ben Zuckerman, with slightly fitted jacket, straight slim skirt, gold ball button closing.

Right, Jane Derby uses poul de soie in a street-length dinner dress with Pellon-lined skirt. The huge front bow is news.
