

ORDER OF BATTLE
OF THE
UNITED STATES LAND FORCES
IN THE
WORLD WAR
AMERICAN EXPEDITIONARY FORCES
WASHINGTON: 1921

THE AMERICAN EXPEDITIONARY FORCES AND THE BRITISH EXPEDITIONARY FORCES

Diagram 1.—British and American Expeditionary Forces on the western front.

There is, however, one comparison which may fairly be made. This is the comparison between the American Expeditionary Forces and the British Expeditionary Forces. Both countries devoted their major efforts to building up and maintaining their armies in France. The results are set forth in diagram 1, which shows the strength of the two forces at different dates.

The British curve mounts rapidly at first and falls off in the latter part of the period. The American starts slowly and then shoots up very rapidly. The British curve is in general convex in shape and the American is concave.

The British sent to France many more men in their first year in the war than we did in our first year. On the other hand, it took England three years to reach a strength of 2,000,000 men in France and the United States accomplished it in one-half of that time.

It must, however, be borne in mind that the British had to use men from the beginning to fill gaps caused by casualties, while the American forces were for many months built up in strength by all the new arrivals.
